## Summary guidelines on records retention periods for Schools

**Please Note:**

Due to the on-going Independent Inquiry into Child Sexual Abuse (IICSA/Jay Inquiry) no pupil and staff record should be destroyed until further notice. The guidance below will still indicate a retention period (in the 'Retention Action' column), but in those cases where records should **not be** destroyed, this has been noted in the 'Disposal Action' column. For further information/clarification please contact the council's Corporate Records Manager by emailing [records.management@derbyshire.gov.uk](mailto:records.management@derbyshire.gov.uk) or telephoning 01629539203

**Introduction:**

These guidelines have been produced by Derbyshire County Council to assist schools in the management of their records. The guidelines outline the recommended retention periods for schools based on legislation and common practice.

It is the responsibility of schools to retain their records for the appropriate retention period, or to transfer their historical records (those specifically highlighted in this document) to Derbyshire Record Office as the archive service for Derbyshire County Council.

The retention guidelines produced in this document are some of the key retention periods which need to be considered. For a comprehensive list of retention periods schools should consult the *Retention Guidelines for Schools* produced by the Information and Records Management Society (available at <http://www.irms.org.uk/resources/848>). If the records you are managing are not mentioned within this guidance document please consult the *Retention Guidelines for Schools*.

**Explanatory Notes:**

The retention guidelines will outline a description of records, followed by the action to be taken in (e.g. retain for 3 years). This will be based on an event/action which will trigger that retention action (e.g. date record created). The disposal action will either be the destruction of the records, or their transfer to another organisation (either another school, or as archives to Derbyshire Record Office).

These guidelines may include references to records which are no longer routinely created as part of school business (e.g. log books). These have been included to assist schools who have a large backlog of historical records which require reviewing.

Under the Freedom of Information Act 2000 LEA schools (including schools which are granted academy status) are regarded as public bodies and are subject to the Act. This requires that schools manage their records appropriately against agreed retention periods.
