

## Bird model evaluation

Did you enjoy making your bird model? What do you like best about the finished model?

Comment about the success of the following things:

Shape -

Colour -

Neatness -

Strength -

Which part of the construction process did you like doing the most?

What was the most difficult part?

Is your finished design realistic (like a real bird) or more abstract?

If you made this model again, what would you do to improve it?
